

Sustainable Public spaces through
Inclusive Community Engagement

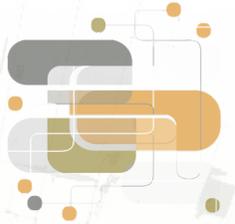

spice-he.eu

SPICE connects people, cities,
and ideas to co-create sustainable,
inclusive, and human-centered public
spaces across Europe.

Sustainable Public spaces through Inclusive Community Engagement

SPICE brings together communities and professionals to reimagine how public spaces are designed, shared, and sustained - creating environments that belong to everyone.

Partners across Europe collaborate through participatory design and dialogue, combining local insight with urban innovation to create sustainable, inclusive, and community-driven environments.

► spice-he.eu

- Connects communities, designers, and policymakers to co-create public spaces that reflect shared values and local identity.
- Promotes inclusive urban design, ensuring public spaces are welcoming, accessible, and usable for all.
- Bridges research and real-world practice, linking civic engagement with sustainable urban development.
- Encourages community participation in the planning, design, and use of public environments.
- Develops frameworks and tools for dialogue-driven design, empowering local stakeholders to influence change.
- Pilots innovative projects across Europe that demonstrate how collaboration leads to more resilient and people-centered public spaces.
- Fosters knowledge exchange among European cities to share best practices in sustainability, accessibility, and cultural inclusion.
- Supports the European Green Deal and New European Bauhaus values, translating them into practical community actions.
- Advances digital and participatory tools to make engagement processes more transparent and inclusive.
- Shapes public spaces that foster connection, creativity, and well-being.
